

Ballast for Rapid Start Lamp

Manufacturer : for RAPID START LAMP 1Kw., 3Kw., 6Kw., 1000GL/HL, 3000GL/HL, 6000GL/HL and USHIO Lamp GL-10201BF, HL-10201BF, GL-30201BF, HL-30201BF, GL-60201BF, Curemex Lamp YGL-321, YGL-621

TAS Offers the highest quality ballast for RAPID START LAMP available to the Plate Making, Film Process, Diazo Film, Silk Screen.

Rapid Start Lamp are engineered to provide an instantaneous high voltage to strike the elements with in a gallium or mercury lamp creating a plasma.

The ballast continues to provide full power to the lamp in order to sustain the lamp plasma. Other design features permit operation with a constant lamp wattage during input voltage variation to insure a terminal input can adjusted 210V, 220V, 230V, and 50Hz, 60Hz.

TAS 1000GL/HL

TAS 3000GL/HL

TAS 6000GL/HL

Model	Lamp Power (Kw.)	Lamp Voltage (V)	Lamp Current (A)	Input Voltage (V)	Hz.	Input Current (A)
TAS 1000GL/HL	1	145	7.6	210-230	50/60	10/15
TAS 3000GL/HL	3	235	13.5	210-230	50/60	18/24
TAS 6000GL/HL	7	420	18	220-380	50/60	35-40/20-27
